MANUFACTURER FREE REPLACEMENT BATTERY LIMITED WARRANTY

KEY TERMS AND PROVISIONS

AutoNation takes great pride in the batteries it sells and provides a limited warranty program for its batteries. If a battery is returned within the free replacement period (calculated from the date of sale as shown on your sales receipt) for failure to perform due to defects in materials or workmanship, you are entitled to a new replacement AutoNation Precision Parts battery of the same type at no charge (subject to any applicable installation charges, taxes and government required fees). You should have this done at an AutoNation retailer. If you are not within 60 miles of an AutoNation location, you may go to any FVP Installer as FVP is the manufacturer of our AutoNation Precision Parts battery.

To find your nearest AutoNation location go to www.AutoNation.com (click) Dealer Locator or call your AutoNation retailer. To find your nearest FVP Installer if traveling or you are not within 60 miles of an AutoNation location, go to <https://www.fvpparts.com/fvp-locator/fvp-parts-installer>.

The label on the front of every AutoNation Precision Parts battery specifies the total number of months covered by the free replacement period. If the label does not reference a warranty period, this limited warranty program does not apply.

NOTE: This limited warranty limits our responsibility to providing a replacement battery in the event of defects in materials or workmanship, under the below terms. Warranty law varies from state to state, however, you may also have additional legal rights depending on your state's laws.

If your battery fails to start your vehicle, we recommend the following course of action:

1. Determine if the battery needs a boost or replacement. Most batteries that fail are simply discharged and need a boost. AutoNation recommends having the battery tested first to determine the cause of failure. If the battery is simply in need of a boost, have it re-charged and re-tested.
2. If the battery is still not working properly, you can determine if the battery is under the free replacement period by referring to the free replacement period on the front label, and checking the date on your original receipt. If the battery is under the free replacement period, it can be replaced with a new replacement AutoNation battery of the same type at no charge to you (other than any applicable installation charges, taxes and government required fees). ***Proof of purchase is required (original receipt) for the free replacement warranty. This policy is available from an AutoNation Retailer. This is a nontransferable limited warranty.***
